DETAILED ACTION

1. Applicant's arguments filed January 4, 2007, have been fully considered.
2. Claims 1-34 are pending and have been examined.

Claim Objections

3. Claim 33 is objected to because of the following informalities: "form", perhaps "from" was intended. Appropriate correction is required.
4. Claim 34 is objected to because of the following informalities: "process system", perhaps "processing system" was intended. Appropriate correction is required.

Allowable Subject Matter

5. The following is a statement of reasons for the indication of allowable subject matter:

- claims 1-34 would be allowable;
- regarding independent claims 1, 8, 12, 22, 23, 33, and 34, the prior art of record does not teach
- "receiving an operator command to reset authentication data having **associated thereto an expiration attribute set to a value providing for indefinite duration of the authentication data** wherein the authentication data facilitates authorization of the management operations from an operator, and configured to generate a reset signal in response to the operator command" in combination with the other limitations recited in independent claims 1, 8, 12, 22, 23, 33, and 34;

- claims 2-7, 9-11, 13-21, 24-26, and 27-32 are allowed because of their dependence from independent claims 1, 8, 12, 22, and 23 respectively.

6. As allowable subject matter has been indicated, applicant's reply must either comply with all formal requirements or specifically traverse each requirement not complied with. See 37 CFR 1.111(b) and MPEP § 707.07(a).

7. Claims 33 and 34 would be allowable if rewritten to overcome the objections set forth in this Office action.

8. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
